CLASSIFICATION: UNCLASSIFIED

Andrew,

This is the monthly update on the solids removal from the Georgetown Sedimentation basins.

As you will see in the attached letter we did as well in the last 30 day period as we had done in the previous 30 days.

We had a slight delay responding to questions from counsel and contracting, but we now believe they are satisfied and will issue the contract to the contractor who will supplement the dredging on June 17, 2016.
